Scenic hills

Now the powerline right-away is not on my
land but it is close by. I think the Arcadia Route
or Blair route are ridiculous because of the
hills it would have more effect environmentwise.
I believe the best route is to follow
the interstate from Rochester to Lacrosse. 2nd choice
is to follow existing line from Alma, Trempealeau & Lacrosse

In your opinion, what are the most sensitive resources (biological, cultural, recreational, ect.) in the Project area and why?

Your comment has been noted. Potential impacts to social and economic resources will be addressed in the Draft Environmental Impact Statement.

Dairyland Power Cooperative, one of the CapX2020 utilities, has requested financial assistance from USDA Rural Utilities Service (RUS), for Dairyland's anticipated 11 percent ownership interest in the proposed Hampton-Rochester-La Crosse 345 kilovolt transmission line project. RUS has determined that its funding of Dairyland's ownership interest is a federal action and therefore subject to the National Environmental Policy Act (NEPA) and Section 106 of the National Historic Preservation Act (NHPA). RUS is the lead agency for both NEPA and Section 106 review.
